Dear Ms Clark:

Thank you for your letter dated 15 June 2004 regarding feedback on the draft statewide guidelines for the management of patients with suicidal behaviour and risk being developed by the Mental Health Unit, Queensland Health.

Your recommendations were noted and taken into consideration in producing the final document. A copy of the finalised document is enclosed.

I note that a successful meeting between the White Wreath Association and the Acting Director of Mental Health occurred in October 2003. I offer my support for such a meeting to occur again. If White Wreath Association would like to arrange an appointment with the Acting Director of Mental Health, please telephone (07) 3234 0675 to arrange a suitable time. y

Yours sincerely
